ENGINEERING PROGRAMS

Mechanical Engineering

The objective of the undergraduate and postgraduate program of Mechanical Engineering is to provide the opportunity for the students to develop a firm foundation in mathematics, science, and design methodology applied to the disciplines of mechanical engineering.

Electrical & Electronics Engineering

The mission of the Department of Electrical Engineering is to offer an EE undergraduate and postgraduate program that augments the liberal education expected of all India undergraduates and imparts a basic understanding of Electrical and Electronics engineering built on a foundation of physical science, mathematics, computing, and technology.

Electronics & Communication Engineering

To provide training in electronics and communication engineering for undergraduate and postgraduate who wish to augment their analytical skills and knowledge of communication systems, Electronics devices, software engineering, data communications and digital electronics.

Computer Science & Engineering/IT

Job prospects will be excellent, as computer software engineers are expected to be among the fastest-growing occupations. Employment growth will result as businesses and other organizations adopt and integrate new technologies and seek to maximize the efficiency of their computer systems.

Civil Engineering

Our objective to provide value based education in engineering technology and management. Inculcate dedication, hard work, sincerity and ethics in building up the overall professional personality of our students and faculty.

MANAGEMENT & COMPUTER APPLICATION

MBA Program

The Master of Business Administration (MBA) is an internationally-recognized degree designed to develop the skills required for careers in business and management. The value of the MBA, however, is not limited strictly to the business world. An MBA can also be useful for those pursuing a managerial career in the public sector, government, private industry, and other areas.

Through the MBA programs, students can pursue business education and learn skills that will help them pursue various management and administrative roles within a company. Employers may seek business administration graduates for a broad range of positions in different areas.

MCA Program

This course aims at fulfilling the industry's growing need for the competent software professionals. The course content is a perfect blend of computer science, computer-oriented mathematics and management science. The sixth semester of MCA is exclusively dedicated for industrial project work. Along with the theoretical inputs, emphasis is given on the practical training to facilitate the students to work in a simulated environment.

Eminent IT Professionals and Academicians deliver lectures in guest lecture sessions and seminars are also held on the present status and scenario of the IT world.

1. Imprisonment upto 2 years and
2. Fine upto Rs. 10,000/- and
